

LICK RUN PROJECT - COMPLETED PROJECTS

Harrison Avenue Phase A

Harrison Avenue and Tremont Street, looking southeast

Curbside bumpout planter at Tremont Street

- Completed in Fall 2013
- ~4,000 feet of new storm sewer along Harrison Avenue between Queen City Avenue and Everglade Place
- Project coordinated with CDOTE roadwork
- Will remove about 12 million gallons of stormwater from combined sewer during typical year
- Will connect to Valley Conveyance System (VCS)
- Curbside bumpout planter added in Spring 2014 at Tremont Street

Rapid Run Park

- Completed in Fall 2014
- Will remove about 164 million of stormwater from combined sewer (when combined with Sunset Avenue project)
- Will connect to Sunset Avenue project

Completed bioswale during rain event

Completed bioswale during dry weather
