

QUEEN CITY AND CORA AVENUES

In Design

Anticipated Construction: Summer 2016 - Summer 2017

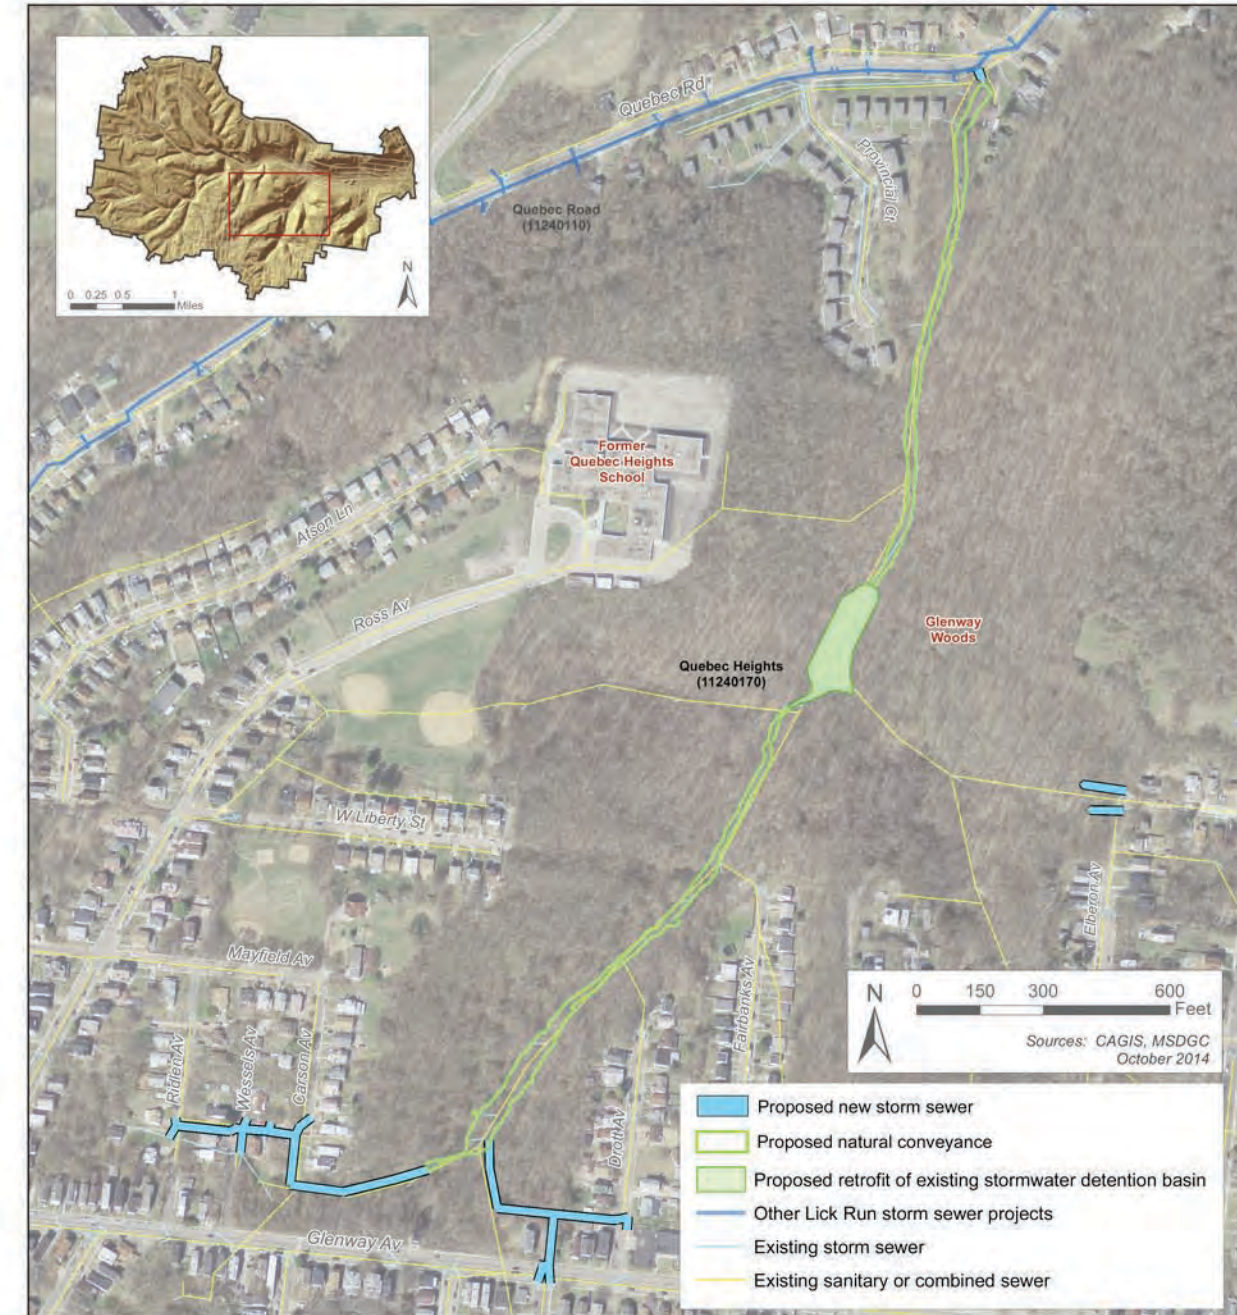

Project Description: Green infrastructure project in ravine behind Judson Care Center. Restoration of a stream that was enclosed in a combined sewer. Includes the retrofit of three existing stormwater detention basin and new storm sewer along Fenton Avenue and at bottom of the ravine. This project will remove about 20 million gallons of stormwater from the combined sewer system during a typical year of rain.

QUEBEC HEIGHTS

Starting Soon

Anticipated Construction: Summer 2015 - Fall 2016

Project Description: Green infrastructure project in Glenway Woods. Restoration of a stream that was enclosed in a combined sewer. Includes the retrofit of one existing stormwater detention basin and new storm sewer across Glenway and along Ridlen, Wessels, Carson and Drott avenues. This project will remove about 11 million gallons of stormwater from the combined sewer system during a typical year of rain.
