

SUNSET AVENUE, SUNSET LANE, AND RAPID RUN PIKE

Starting Soon

Anticipated Construction: Spring 2015 - Summer 2016

Project Description: About 10,000 linear feet of new storm sewer will be installed along Sunset Avenue/Rapid Run Pike, Sunset Lane and Guerley Road. Also includes one new stormwater detention basin. An existing detention basin will also connect to the project. This project will remove about 165 million gallons of stormwater from the combined sewer system during a typical year of rain (combined with the Rapid Run Park project).

WHITE STREET

Starting Soon

Anticipated Construction: Spring 2015- Spring 2016

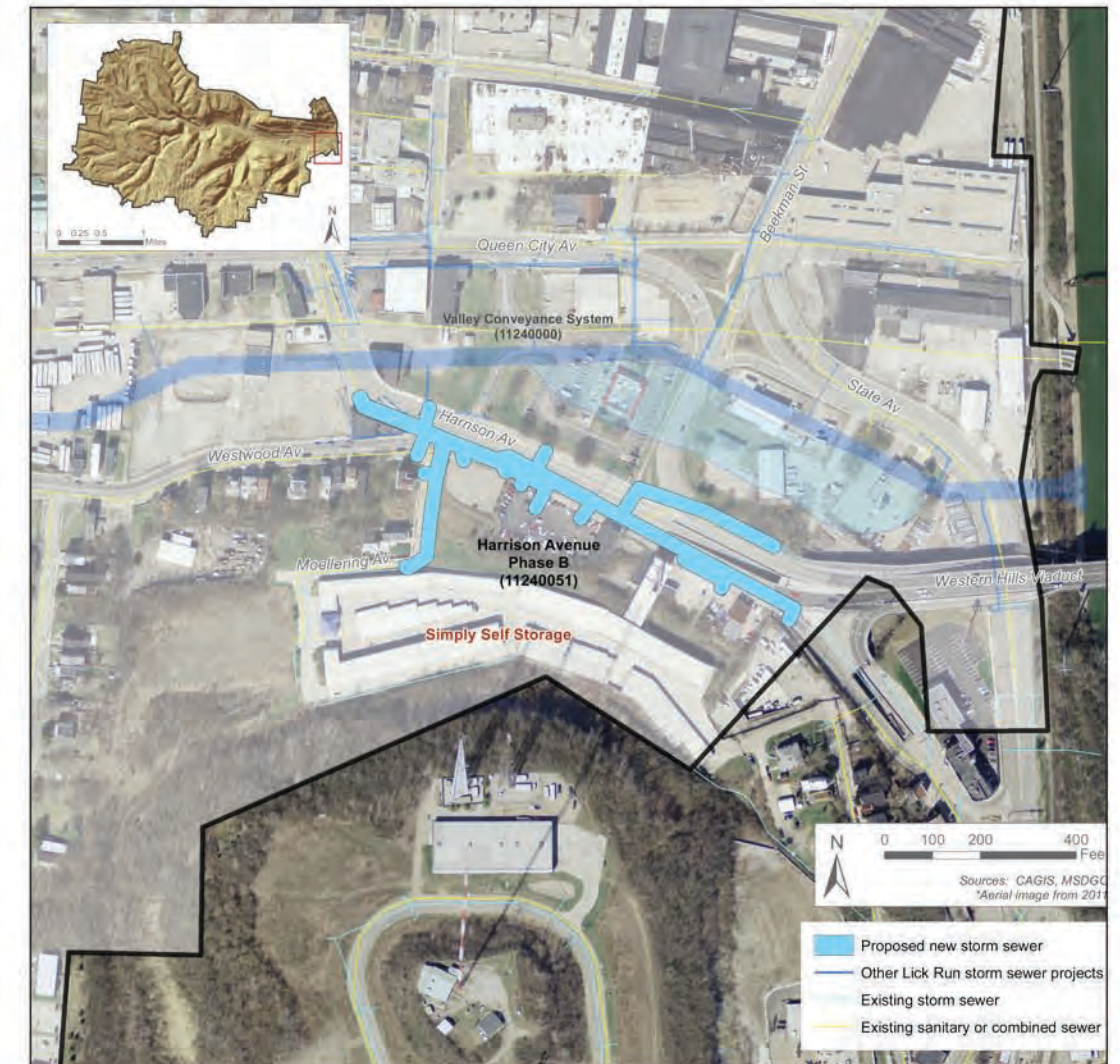

Project Description: About 6,400 linear feet of new storm sewer will be installed along White Street and Queen City Avenue and multiple side streets: Richter Street, Horton Street, Pinckney Avenue, Ley Avenue and Bickel Avenue. This project will remove about 14 million gallons of stormwater from the combined sewer system during a typical year of rain.

HARRISON AVENUE PHASE B

Under Construction

Fall 2014 - Spring 2016

Project Description: About 2,000 linear feet of new storm sewer will be installed along Harrison Avenue between the Western Hills Viaduct and Queen City Avenue, Westwood Avenue and Moellering Avenue. This project will remove about 17 million gallons of stormwater from the combined sewer system during a typical year of rain.
