

LICK RUN DEMOLITIONS AND DECONSTRUCTION

- About 77 buildings need to be demolished:
 - 24 have been demolished to date; 9 more are in progress.
- No properties have been demolished that are potentially eligible for the National Register of Historic Places.
- MSD is partnering with Building Value, LLC in Northside to salvage reusable building materials prior to demolition and to deconstruct buildings during demolition. More than 300 items have been salvaged during soft stripping and more than 3 tons of reusable materials have been removed during deconstruction.
- Keep Cincinnati Beautiful is seeding and maintaining the vacant lots following demolition.
- Both Building Value and Keep Cincinnati Beautiful (through a third-party organization) offer job training for local workers.
