MSD Construction Project Update

Harrison Avenue Sewer Separation - Phase B in South Fairmount (part of the Lick Run Project)

As part of the Lick Run Project, the Metropolitan Sewer District of Greater Cincinnati (MSD) is installing new storm sewers along Harrison Avenue, Beekman Street and Moellering Avenue in the vicinity of the Western Hills Viaduct in South Fairmount. The work began in December 2014 and is anticipated to be complete by the spring of 2015.

Traffic Pattern Update

Inbound (eastbound) Harrison Avenue is down to one inbound lane from about a quarter mile northwest of the intersection of Harrison and Queen City avenues to where Westwood Avenue joins Harrison Avenue near the Western Hills Viaduct.

This temporary lane closure will remain in effect from Monday evening, February 2, 2015 through Tuesday evening, February 3, 2015.

Morning inbound traffic will be impacted by this lane closure. **Drivers are encouraged to use caution when driving in this area and are reminded to use alternate routes around the area if at all possible.**

Project Background

The Lick Run Project is part of Project Groundwork, MSD's plan to reduce combined sewer overflows into streams and rivers in Hamilton County. Project Groundwork will improve the quality of our lives through cleaner water, improved protection of public health and enhancements to the communities where we live, work and play.

For additional information about the project, please contact MSD Engineering Customer Service at (513) 557-3594 or MSD.Communications@cincinnati-oh.gov.
