Notice of Construction

Hunsford Street Sewer Replacement

Cincinnati, OH – Beginning the week of February 9th, the Metropolitan Sewer District of Greater Cincinnati (MSD) will commence construction of the Hunsford Street Sewer Replacement project. This project includes replacing the existing sewer with 184 feet of 8-inch sewer in Hunsford Street, between Wiswell Street and Curzon Avenue in the Hartwell neighborhood of Cincinnati.

Construction, performed by Smithcorp, Inc., will occur primarily Monday through Thursday during daylight hours, depending on weather conditions and the contractor's schedule. The project is expected to be completed in April 2015.

Hunsford Street Sewer Replacement project is part of MSD's multi-year plan to reduce sewer overflows into streams and rivers in Hamilton County. Project Groundwork will improve the quality of our lives through cleaner streams, improved protection of public health, and enhancement of the communities where we live, work, and play.

For additional information about the project, please contact MSD Engineering Customer Service at (513) 557-3594 or MSD.Communications@cincinnati-oh.gov.
